# SECURING GOVERNMENT MISSIONS

## ACCELERATING COMPLIANCE | ENGINEERING RESILIENT IT

### ABOUT US

NIT, Inc. is a specialized cybersecurity, compliance, cloud, and IT engineering firm supporting U.S. federal agencies, government contractors, and organizations operating in highly regulated environments. As an SBA-certified HUBZone business and CMMC-AB Registered Provider Organization (RPO), NIT combines deep federal cybersecurity expertise with hands-on engineering and cybersecurity services.

#### Cybersecurity & Compliance

- Cybersecurity strategy, governance, risk management & GRC engineering
- NIST RMF / FISMA lifecycle, system categorization, control implementation, assessment & authorization
- ATO support, SSP, SAR, POA&M, security & privacy documentation, and continuous monitoring
- NIST, FISMA, FedRAMP, CMMC, HIPAA, PCI DSS & ISO 27001 compliance
- Security, privacy, vulnerability & risk assessments; security testing & penetration testing
- Policy, procedure & control development, implementation and compliance automation

**We do not offer generic solutions; we develop a strategy that fits our clients' alerting, reporting, advisories, mitigation, and compliance requirements.**

**Experienced and certified personnel using a range of industry leading solutions allows us to be agile and cover all areas of an organization's IT infrastructure and cyber posture.**

#### Cloud, DevSecOps, IT Engineering & Modernization

- Secure cloud architecture, migration, modernization & optimization
